

Abdallah Id Lahcen

Android Developer

Morocco | abdallah.idlahcen2@gmail.com | abdev.online

LinkedIn: [abdallah-id-lahcen-743094162](#) | GitHub: [abdeldev007](#)

Android developer based in Morocco, working remotely for stadtraum GmbH in Germany. My background includes native Android and client applications built with Kotlin and Java. Outside work, I build SoulSync and explore Kotlin Multiplatform and iOS through PetPals.

EXPERIENCE

Android Developer | stadtraum GmbH

Jan 2023 - Present

Full-time | Remote | Germany

- Work remotely as an Android Developer for stadtraum GmbH, a German company.

Android Developer | AjiCreative

Jan 2021 - Jan 2023

Full-time | Agadir, Morocco

- Developed Android client apps for hospitality, food delivery, barber services and football communities, including Gloo Gloo, Illico, Elige and Number 10.
- Built Kotlin applications using MVVM and Retrofit, with social sign-in, Google Maps and Stripe integration.

Freelance Android Developer

Aug 2019 - Jan 2021

Part-time | Client work through Fiverr | Agadir, Morocco

- Built an Android TV app for clinic waiting rooms with YouTube streaming, RSS news and GPS-based weather.
- Added login features and fixed bugs for Wish2; developed IPTV playback from M3U playlists.

PERSONAL PROJECTS

SoulSync | Native Android

A dating app with compatibility-based discovery, detailed profiles and real-time chat.

Project website | [Google Play](#)

PetPals | Kotlin Multiplatform | In development

A side project for pets and their people, with discovery, communities, chat and playdate planning. Android and iOS releases are planned; the iOS experience is in development. [Preview website](#)

TECHNICAL SKILLS
